

Blakeney Surgery Update

Dear Patient

You may now have heard that Blakeney Surgery will be closing towards the end of this year.

We know that change can be unsettling, please don't worry. **The services currently offered from Blakeney Surgery will remain exactly as they are now, until you hear otherwise.**

We realise the news of the future closure may cause concern for some patients that currently use Blakeney Surgery, but please be assured that we are fully committed to keeping the impact on our patients to an absolute minimum.

Our immediate priority is to find another local site where we can relocate the medications collection and ordering service. This would mean you would still be able to collect and order your medication in or around Blakeney without needing to travel significantly further.

As soon as we have any details on where this new site might be, the operating hours or when the change might happen, we will provide you with a further update.

Over the next few weeks, we will be capturing some basic data from our Blakeney patients as they collect their medication so we can ensure we manage this change responsibly so that no one is unreasonably disadvantaged at the point of closure.

Holt Medical Practice is committed to finding an alternative local site for your collections, and we are hopeful the local community will work with us to make this a reality and to ensure the potential impact on all patients is kept to a minimum.

Thank you for your patience and support during this period.

The Partners, Holt Medical Practice
